The word "fractal" often has different connotations for laymen as opposed to mathematicians, where the layman is more likely to be familiar with fractal art than the mathematical concept. The mathematical concept is difficult to define formally, even for mathematicians, but key features can be understood with little mathematical background.

An L-system or Lindenmayer system is a parallel rewriting system and a type of formal grammar. An L-system consists of an alphabet of symbols that can be used to make strings, a collection of production rules that expand each symbol into some larger string of symbols, an initial "axiom" string from which to begin construction, and a mechanism for translating the generated strings into geometric ...

The Algorithmic Beauty of Plants was originally printed by Springer-Verlag in 1990 (second printing 1996). (See our list of known errors from the print version.) An electronic version has been produced using the original LaTeX files and digital illustrations. It is available in two versions: the original version is of higher quality, while the downsampled version is of low quality, but has a ...
