Gravitoelectromagnetism. In the weak-field and slow motion limit of general relativity, the phenomenon of gravitoelectromagnetism (in short "GEM") occurs, creating a parallel between gravitation and electromagnetism. The gravitational field is the analogue of the electric field, while the gravitomagnetic field, which results from circulations of masses due to their angular momentum, is the ...

The general form of wavefunction for a system of particles, each with position  $r_i$  and z-component of spin  $s_z$ . Sums are over the discrete variable  $s_z$ , integrals over continuous positions  $r_i$ . For clarity and brevity, the coordinates are collected into tuples, the indices label the particles (which cannot be done physically, but is mathematically necessary).
