

mind manipulation ancient and pdf

A dream is a succession of images, ideas, emotions, and sensations that usually occur involuntarily in the mind during certain stages of sleep. The content and purpose of dreams are not fully understood, although they have been a topic of scientific, philosophical and religious interest throughout recorded history. Dream interpretation is the attempt at drawing meaning from dreams and ...

The anthropological sciences occasionally have to deal with something which has a profound but unexpected impact on our understanding of human origins. Two events are noteworthy, in part because both impacted powerfully upon our concept of human evolution, but also because they were diametric opposites. One was a truth first rejected, and the other was a false contrivance embraced as fact.
